

COLLAPSIBLE RETURNABLE UNIT

FOLDABLE LARGE CONTAINER

BOOST PERFORMANCE
OF YOUR LOGISTICS

SIMPLE & EASE TO ASSEMBLE

BUILD TO OUTSTAY

The Thermoforming & Pallet deliver high strength and load carrying capacity without increasing weight of packaging. The scientifically designed walls and ribs provides larger internal dimensions and carrying capacity. Lid and pallet are designed for stable stacking and compatibility with all standard forklifts for easy handling.

The sleeve, made from Bubble Guard with a unique honeycomb core, offers a high physical durability and ultra low weight. It's impressive impact and compressive strength due to air-lock technology keeps damage at bay during rough transportation.

SIMPLE & EASE TO ASSEMBLE

Available Sizes 1200mm x 1000mm and 1200mm x 800mm.

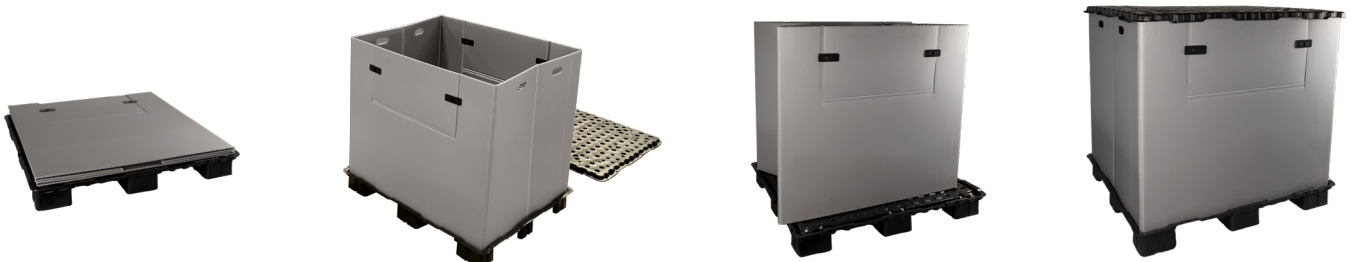

Sleeves are Lockable & Secured.

Sleeves can be made of SINGLE BUBBLE & DOUBLE BUBBLE.

Sleeves GSM availability -2500 to 4000gsm.

Thickness - 8mm to 20mm.

Windows, M - Fold, Z - Fold, Edge Sealed etc.

Up to 75% Savings in Return Logistics

VALUATION DEFINED

FUNCTIONALITY

Modular, ergonomic & adaptable containers

Strong, light and rigid structure

Stackable & foldable

PROFITABILITY

Up to 75% volume saving on return

55% savings on average

Return on investment from the 1st year

Eco Design

100% PP and PE Recyclable without sorting

Up to 20 years service life = limited waste

Recycling without discharge of VOC, recovery by re-granulation

SERVICE

A dedicated team of Packaging Strategists

Solutions designed and manufactured from A to Z

A single contact to accompany your project

COMMITTED TO SUSTAINABLE FUTURE

REDUCE CARBON EMISSION

100% RECYCLABLE

SUSTAINABLE MANUFACTURING

All-Round Approach from Design to Production

Your product is special & requires a non-standardized transport solution. Please contact our experts in order to develop the solutions which meets your specific requirements.

OUTPERFORMS CONVENTIONS

- Precise dimensions ensure the most optimum usage of floor space and maximum carrying capacity
- Bubble Guard walls provide the best strength to weight ratio making it light weight without compromising on superior protection
- Durability and reusability equals the most cost effective solution and higher savings
- 100% Polypropylene walls that are completely waterproof, UV resistant, heat resistant and chemical resistant ensuring protection in all industrial environments
- 100% recyclable sleeves so you can replace them after multiple uses without hurting the environment

STANDARD SPECIFICATION.

Sr no	Bubble Size/GSM	Pallet Dimensions	Inner Dimensions	Outer Dimensions	Loading Capacity	Maximum Stacking
1	D12/3000	1200 X 1000	1135 X 935	1160 X 950	500 KG	3(1+2)
2	D12-D12/2500	1200 X 1000	1132 X 925	1160 X 950	500 KG	3(1+2)
